

CREATING IMPACT FOR A SUSTAINABLE FUTURE

The **Sun Group** commenced operations in **1992 in Delhi**, India as agent for various fertilizer producers including Qatar Fertiliser Company and Foskor.

We evolved the business into fertiliser trading by establishing **Sun International FZE** as the trading arm of the Group in Dubai, United Arab Emirates in 2008.

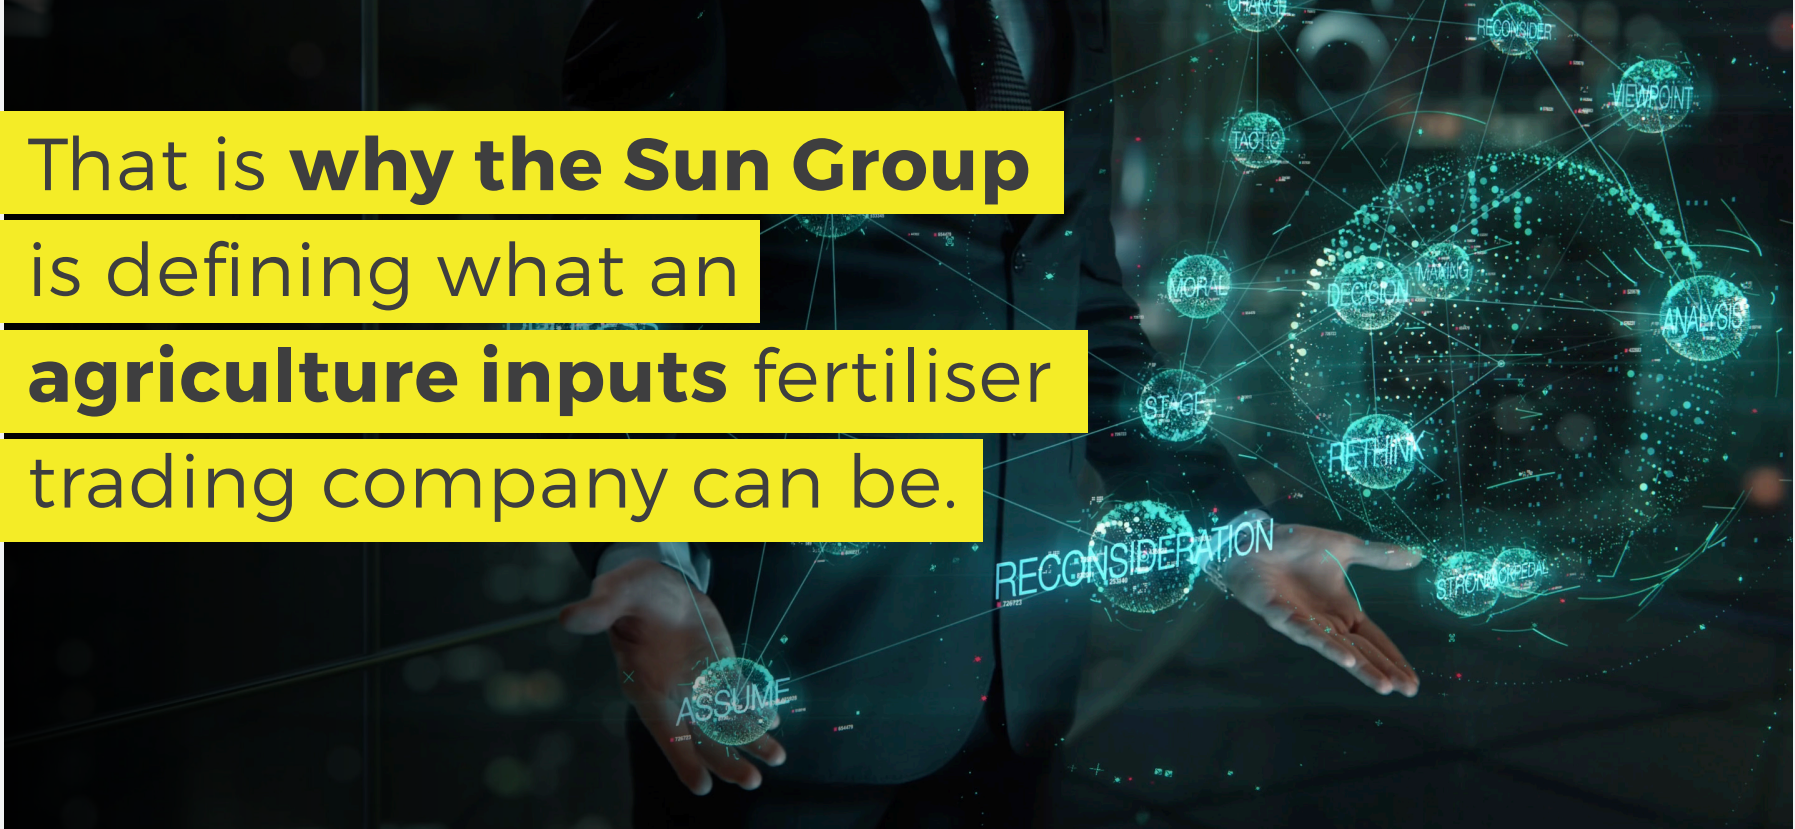

At Sun we **never stop growing** because the world demand for food never does. By 2050 we will need to feed almost **10 billion** people. The fertiliser market will grow from
